Check our Web site for the Directory of Cigarettes and Roll-Your-Own Tobacco Products that are approved for sale in Nebraska.

Mail this form to: **NEBRASKA DEPARTMENT OF REVENUE, P.O. BOX 94818, LINCOLN, NE 68509-4818**

INSTRUCTIONS

COLUMN A. Print the name of the supplier from whom your company purchased each brand family of cigarettes that your company stamped and sold in Nebraska for the tax period covered by this report and any roll-your-own (RYO) tobacco that was reported on your Nebraska Tobacco Products Tax Return, Form 56, and sold to customers in Nebraska.

COLUMN B. Print the brand family name of the RYO tobacco sold in Nebraska and any cigarettes that you stamped and sold in Nebraska.

COLUMN C. Enter the total number of individual cigarettes by brand family that your company stamped and sold in Nebraska to consumers, retailers, and other Nebraska licensed cigarette wholesale dealers.

Example: Determine the total number of packs or cartons of each brand family of cigarettes stamped for Company X. Multiply the total number of packs or cartons of cigarettes by the number of individual cigarettes in each pack or carton. Add these numbers together and enter that number for each brand family on the corresponding line under Column C.

COLUMN D. Enter the total number of ounces of RYO tobacco products by brand family that your company reported on Form 56 and sold in Nebraska.

Convert the number of ounces to equivalent cigarettes. To convert ounces to equivalent cigarettes divide ounces by .09.

Roll-your-own (RYO) tobacco. RYO tobacco is any tobacco which, because of its appearance, type, packaging, or labeling is suitable for use and likely to be offered to, or purchased by, consumers as tobacco for making cigarettes.

LINE 2. The number of individual cigarettes stamped and sold and reported on Form 55A, line 1 should be the same number of cigarettes that were sold as reported on Form 55 for the same tax period. To calculate the number of individual cigarettes to report on line 2, add together the number of packs reported on line 20 or line 26 and line 20a or line 26a, Form 55, multiplied by 20 and 25 cigarettes respectively. Add these two amounts together and report the total number of individual cigarettes on line 2.
